(Dr. K. DELHI BABU)  
Vice President – Career Development Centre

- Detailed JD is attached to this notification.

At Capsitech,  
we create world-class application suites.

A career at Capsitech is about being part of a team working on some of the most creatively rewarding and ambitious projects to be found in any growing domain. You would be welcomed to a dedicated and inclusive environment where you can learn, and collaborate with some of the most talented people in the industry.

Capsitech is seeking a talented Full Stack Developer to join our web development team. This is a full-time position in Capsitech's premises in Jodhpur.

With the rapid growth of Acting Office and other long-term projects planned, the successful candidate will be working on well-established industry projects with international clients, while paying great attention to detail, being a strong team player and having excellent communication skills.

We are looking for someone passionate about the latest tech, eager for new challenges, and ready to continue our legacy of creating new software trends.

## What We Do

- ✓ We work on a mature accounting software suite.
- ✓ We handle various projects from our multinational clients.
- ✓ We create some great in-house projects to improve our smooth flow of management.
- ✓ We always find scope for the implementation of AI/ML algorithms to ease human interactions with our apps.

## Responsibilities

- ✓ Development of front-end and Back-end.
- ✓ Web performance optimization.
- ✓ Collaboration with other Rockstar technology teams across our worldwide studios.

## Qualifications

B.Tech, M.Tech, Specialise in CS, IT, AI-ML, Cyber Security.

## Required Knowledge

- Proficient in JavaScript/ES2015+.
- Solid experience with SQL/NoSQL preferably Mongo.
- Experience with source control, preferably GitHub.
- Knowledge of Agile software development processes.
- Application of software development best practices.
- Knowledge and application of web security best practices.
- Great communication skills as a core member of an internationally-based team.
- Passion for web technologies and a desire to remain up to date with the latest technologies.
- Basic understanding of machine learning algorithms, deep learning architectures, NLP, LLMs and neural networks.
- Flexible on high-traffic, responsive websites and applications.
- Analytical and problem-solving skills, with the ability to analyze complex datasets and derive actionable insights.

## Job Title

### Associate Trainee

Company

**Capsitech IT Services**

Location

**Jodhpur, Rajasthan**

## About Us

Capsitech IT Services is a leading technology company specializing in providing innovative solutions in various domains. We are committed to pushing the boundaries of technology to deliver cutting-edge solutions to our clients globally.

## Job Description

We are seeking a talented and passionate Machine Learning Engineer to join our dynamic team. As a Machine Learning Engineer at Capsitech, you will be responsible for designing, developing, and implementing machine learning models and algorithms to solve complex problems across various domains. This is an excellent opportunity for freshers to kick-start their career in the exciting field of machine learning.

## Key Responsibilities

- ✓ Develop and implement machine learning models and algorithms using TensorFlow, Python, and other ML technologies.
- ✓ Work on projects involving computer vision, natural language processing (NLP), and other AI-related tasks.
- ✓ Collaborate with cross-functional teams to understand business requirements and translate them into technical solutions.
- ✓ Perform data preprocessing, feature engineering, and model evaluation to ensure optimal performance.
- ✓ Stay updated with the latest advancements in machine learning and AI technologies.

## Requirements

- ✓ Bachelor's or Master's degree in Computer Science, Engineering, or related field.
- ✓ Strong proficiency in Python programming language.
- ✓ Knowledge of machine learning algorithms and techniques.
- ✓ Experience with TensorFlow or other deep learning frameworks.
- ✓ Familiarity with computer vision and NLP techniques.
- ✓ Ability to work independently and in a team environment.
- ✓ Excellent problem-solving and analytical skills.
- ✓ Strong communication and interpersonal skills.

### **Preferred Skills (Not Mandatory):**

- Experience with Large Language Models (LLMs) such as GPT, BERT, etc.
- Familiarity with cloud computing platforms (e.g., AWS, Azure, Google Cloud).
- Understanding of reinforcement learning algorithms.
- Knowledge of distributed computing frameworks (e.g., Apache Spark).
- Experience with data visualization tools (e.g., Matplotlib, Seaborn).

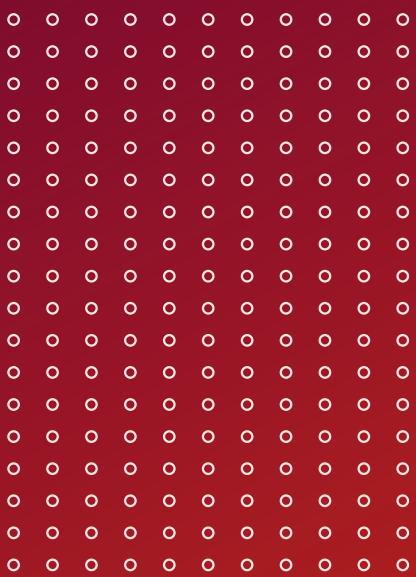

### **Benefits**

- Competitive salary package.
  - Opportunity to work on challenging projects and gain valuable experience.
  - Continuous learning and career development opportunities.
  - Dynamic and collaborative work environment.

# BUSINESS PROFILE

Unifying Technical Competence with  
Exemplary Business Mechanism

[www.capsitech.com](http://www.capsitech.com)

# Business Profile

Founded in the year 2014, Capsitech IT Services is one of the leading fintech companies in the city of Jodhpur, Rajasthan. The company offers a wide range of services through technical tools that are developed to ease the lives of customers and clients. From the world of accounting to the retail industry, the team at Capsitech has marked its presence in several sectors propelling the use of digital alternatives for faster, better, and pocket-friendly solutions.

We invest in the ideas that can mitigate the existing problems in businesses and bridge the gap between demand and supply by creating the technical solutions that befit the requirements of the businesses.

## Our Journey So Far

Our story began in 2010 with a small office and big dreams. The world of technology was unexplored for us back then but the sheer determination of our CEO and the incessant cooperation of the team sailed us through the challenging times and led to the foundation of Capsitech IT Services in 2014. We started with a small but adept team who extensively researched and worked tirelessly towards developing the next-generation and technically-advanced solutions to the impediments faced by businesses.

Today, we are privileged with a team of around 100 members from various educational and professional backgrounds. Our vision is to provide great employment opportunities to the potential and talented workforce whilst enhancing the standards of businesses and augmenting their operational periphery.

# Major Projects

Team Capsitech has developed a number of projects that are successfully operating in the UK and other parts of the world. The following are the major projects we have initiated, developed, deployed, and successfully managed.

## Capium

Team Capsitech created fully integrated accounting software in the shape of Capium that allows users to operate a smarter and streamlined practice. Capium empowers accountants by constant innovation when it comes to creating the most advanced technical tool. Capium has also been awarded the best small business accounting software in the UK.

## Debitam

"Accountants with technology, tax & business advisors" is our motto at Debitam. Founded in the year 2018, the teams at Debitam is dedicated to providing flawless accounting and taxation services to our clients and businesses in the UK through the web-based solutions developed by our team in-house.

[www.debitam.com](http://www.debitam.com)

## Acting Office

Acting Office is a software platform that helps accountants with a one-stop practice management solution. It is designed to assist accounting professionals in managing their daily operations, streamlining workflows, ensuring compliance, enhancing productivity, refining client communication and improving overall efficiency.

[www.debitam.com](http://www.debitam.com)

## Welbeck and Bradwell

At Welbeck and Bradwell, we offer ultimate solutions to businesses in the form of accounting, taxation, auditing, and business consultancies. Our approach towards solving the problems is strategic, technically advanced, and comprehensively reliable.

[www.welbeckandbradwell.com](http://www.welbeckandbradwell.com)

## The Company Formation

We, at the Company Formation UK, provide comprehensive services to the businesses in shaping up their legal and authentic infrastructure by providing a straight-forward and efficient way to register a limited company with the Companies House (the registrar of companies in the UK).

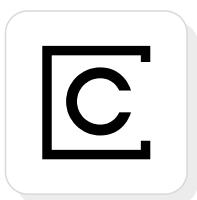

[www.thecompanyformationuk.com](http://www.thecompanyformationuk.com)

## Flipoke

Flipoke is a mobile app designed to connect businesses with temporary staff and individuals seeking short-term jobs. With advanced features, users can easily find opportunities based on distance, profile relevance, schedules, and payment. Flipoke's smart technology ensures the best matches for both employers and job seekers.

[www.flipoke.com](http://www.flipoke.com)

## CapsiLabs

Accelerating innovation and supporting the development of startups. Our mission is to accelerate the growth and development of promising ideas, providing the resources and support necessary to turn their visions into thriving ventures.

[www.capsilabs.com](http://www.capsilabs.com)

## Acquire

Recognizing the importance of business engagement, we've developed Acquire, a comprehensive customer engagement platform. From ideation to implementation, our teams have crafted a dynamic and user-friendly solution that boosts sales and streamlines customer service for businesses.
